Student Support Personnel

Each International student studying at Newcastle Grammar School has key members of staff responsible for their academic, pastoral and general welfare. These staff members include the Head of Enrolments, Deputy Head: Wellbeing and School Life, Deputy Head: Learning and Teaching, Head of House and Learning Support teachers. International students are introduced to these staff members during the initial orientation program and have regular contact – both formal and informal – throughout the student's period of study.

Orientation Program

The orientation program is an important part of the student support program that Newcastle Grammar School offers to International Students.

The orientation process should prepare new International Students to fully participate in the academic and Co-curricular programs offered by the School. It should also provide the students with the necessary information to be a part of the community in which they are living.

International Students need more intensive and individualised programs to cover many of the aspects of studying not only in a new school but also a new education system and country.

Orientation Procedures

Each year there is an orientation program organised for all new students to the School. They are based on the year level of entry and they have a focus on familiarising the new students with the School, its program, the students at their year level and school routines. There are several stages in the orientation of new International Students.

Where possible they are invited to be involved in whole school or year level orientation as well as the specific International Program. Orientation continues well after the initial few weeks at the School.
